Specification:

Model No.	B22
Measurement range	0-280 mmHg (0-37.30kPa) Pulse: 40-199 beats/min
Cuff pressure range	0-299mmHg (0-39.86kPa)
Accuracy	Pressure ± 3 mmHg (0.4kPa) Pulse $\pm 5\%$ of the reading
Average function	Last 3 groups average measuring value
Memory	2x120 groups
Material	ABS+LCD display
Power source	Internal - DC 6V (4xAAA) External - DC6V
Dimension	4.65"(W)x4.33"(L)x2.05"(H)
Cuff perimeter	3.74"x2.52"
LCD size	8.7"x15.7"

Special features:

- 2-Users; 120 memory sets
- Voice broadcast or Silent function
- Background music
- FDA approved. K172171
- Self-checks cuff positioning
- Convenient case in the set
- Large, easy-to-read display
- Arrhythmia detection

Specification:

Model No.	PG-800A12
Measuring range	Pressure: (30~280)mmHg Pulse: (40~199)Beat/min
Measuring Method	Oscillometric Measurement
Accuracy	Static Pressure: ± 3 mmHg Pulse: $\pm 5\%$
Memory	Single type 90 memories
Power supply	2x1.5V Batteries (LR03 or AAA)
Operating condition	+5°C~+40°C. 15%RH~93%RH
Storage condition	-20°C~+55°C. 0%RH~93%RH
Dimension	Approx.62(W)x78(H)x31(D)mm
Weight	Approx.130g, Excluding Batteries
Cuff size	(13.5~19.5)cm Adult cuff for average wrist circumference

Special features:

- Pressure readings in 30 seconds
- Irregular Heart Beat Indicator
- Automatic SHUT-OFF feature after 1 min
- Large LCD display
- Carry Box included
- FDA approved. K131569

Specification:

Model No.	MAX02
Measure Scope	0-300 mmHg
Unit	mmHg
Smallest grade	2mm Hg
Allowable discrepancy	±4 mmHg
Allowable discrepancy in "0"	±1.5mmHg
Cuff material	Nylon
Air valve material	Brass
Gauge material	Zinc Alloy
Cuff perimeter	22-42 cm

Special features:

- The long universal cuff is 22-42cm
- Standard D-ring cuff
- Clip for a cuff
- Latex free
- Zinc alloy manometer
- FDA approved. K173246

#1 Best Seller

in Sphygmomanometers on Amazon USA

Specification:

Model No.	MAX0201
Measure Scope	0-300 mmHg
Unit	mmHg
Smallest grade	2 mmHg
Allowable discrepancy	± 4 mmHg
Allowable discrepancy in "0"	± 1.5 mmHg
Cuff material	Nylon
Air valve material	Brass
Gauge material	Zinc Alloy
Cuff perimeter	22-42 cm

Special features:

- The long universal cuff is 22-42cm
- Standard D-ring cuff
- Clip for a cuff
- Latex free
- Zinc alloy manometer
- Stethoscope included
- Nylon bag in the set
- FDA approved. K173246

Amazon's Choice for Blood Pressure Cuff with stethoscope on Amazon USA

Specification:

Model No.	RH3009
Color	Black
Item Weight	14.1 ounces
Chest piece size	47 mm±0.2mm
Ear ring's elastic force	1.372~1.960N
Spring	≤10mm
Material	Aluminum alloy chest piece, copper binaurals, PVC Y tube
Y tub	Total length 60 mm±5mm OD of Y tube 9 mm±0.5mm ID 5 mm-0.3mm

Special features:

- Two replacement soft ear tips
- Nametag holder
- Diaphragm replacement inside carry case
- Stainless steel head
- FDA approved.
- Latex free

Specification:

Model No.	RH3012
Color	Black
Item Weight	12.7 ounces
Chest piece size	46.5 mm±0.2mm
Ear ring's elastic force	1.372~1.960N
Spring	≤10mm
Material	Aluminum alloy chest piece, copper binaurals, PVC Y tube
Y tub	Total length 60 mm±5mm OD of Y tube 9 mm±0.5mm ID 5 mm-0.3mm

Special features:

- Two replacement soft ear tips
- Nametag holder
- Diaphragm replacement inside carry case
- Stainless steel head
- FDA approved.
- Latex free

Amazon's Choice for Dual Head Stethoscope on Amazon USA

Specification:

Model No.	CM4136
Color	Black
Item Weight	11.21 ounce
Chest piece size	47MM±0.2mm
Ear ring's elastic force	1.372~1.960N
Spring	≤10mm
Material	Stainless steel chest piece, aluminum alloy binaurals, PVC Y tube

Special features:

- Two replacement soft ear tips
- Nametag holder
- Diaphragm replacement inside carry case
- Stainless steel head
- FDA approved.
- All Black

Amazon's Choice for Dual Head Stethoscope on Amazon USA

Specification:

Model No.	DT001
Room Temperature	min.-20°C max.+55°C
Relative Humidity	85 RH
Show Precision	0.1
Body Temperature Test Range	32°C - 42.9°C
Testing Time	50s
Auto-off Time	60s
Use Power	0.15 mV
Weight	17g

Special features:

- Oral, rectal, axillary thermometer
- Large LCD display
- Celsius and Fahrenheit measurements
- FDA approved. K163603
- AUTO shut-off function
- Flexible head

Specification:

Model No.	YK-IRT1
Range	34.0°C~43.0°C
Accuracy	<35.0°C and >42.0°C :±0.3°C 35.0°C~42.0°C : ±0.2°C
Tri-color backlit	≤37.5°C Green 37.6°C~38.0°C Yellow ≥38.1°C Red
The ambient temperature exceeds	≥40.0°C: show Hi <10.0°C: show L
Units of measurement	°C & °F key to switch
Operating Voltage	DC 2.4~3.3V
Battery	2×1.5V AAA
Size	120mm×40mm×30mm (L×W×H)
N.W.	50g

Special features:

- Memory recall of the last 12 readings
- Forehead and ear measurement modes
- Automatic shut-down
- Includes carrying bag
- Reads in 1 second
- Celsius and Fahrenheit measurements
- Fever alarm
- FDA approved. K180314

Specification:

Model No.	PG-IRT1603
Non-contact forehead/ear	
LCD display with backlight	
9 sets of memory	
2 AAA batteries in set	
30 seconds shutoff	
3 in 1 forehead/ear/object	

Special features:

- Stylish light model
- One button operation
- Easy usage
- Quick results in 1 second
- LCD display with backlight and 3 colors indication
- Easy switch from Celsius to Fahrenheit

Specification:

Model No.	SM9910
3 type pads:	2 small 2 medium 2 large
24 Tens modes	
2 types of pads holder wires	
AB independent channels	
20 levels of intensity	
USB cable	
AC adapter	

Special features:

- Dual independent channels for 2 users
- 2 holders for easy pads storage
- Acupuncture guide list
- 24 Modes from kneading to acupuncture
- Pouch included
- LCD display with backlight
- Small device for easy carriage

Specification:

Model No.	NA-H21BF
Size	12x24 inches
Power	160W
Material	Coral fleece with knitting fabric
Auto Shut Off 120 mins	
3 Heat settings	

Special features:

- Soft fabric
- Pouch included
- Easy design controller
- Safety shutoff
- Low-medium-high heat

ACCURATE, CONVENIENT, AND EASY TO USE — FROM A CORONARY ICU NURSE

I am a coronary ICU nurse with a family history of hypertension (high blood pressure) and I purchased this BP monitor to check mine own at home! It's always smart to be ahead of the game with your health. So far, this home BP checker has been phenomenal. I got it today and it seems pretty consistent and accurate. I checked my BP and my husband's and the results are very similar as my previous. I also really enjoy the lady who speaks during the process and the soothing music it plays while it's checking your pressure. It's very user friendly and the directions are pretty straight forward. So far, I highly recommend!

YOU CANNOT BEAT THE QUALITY OR THE PRICE. DO NOT SPEND A TON OF MONEY WITHOUT GIVING THIS A TRY!

I bought this stethoscope because I'm in the middle of moving. All of my stuff is in storage, including my expensive stethoscope. I read the reviews on this and decided I would buy it. It wasn't expensive. I like the sound quality from this stethoscope! It's also lightweight and doesn't tug on my neck. I have a thing about things pulling on my neck. Great deal for a great stethoscope. I highly recommend it.

GREAT CUFF

This is a follow up review of the manual blood pressure cuff. I have been a registered nurse for 27 years and in that time I have used many blood pressure cuffs as you can imagine. So far I really love the Paramed cuff, it is very easy to use, light weight, comes with its own carry pouch and a tiny key that allows you to adjust the dial to 0 for an accurate reading. I am truly happy with this purchase and highly recommend the Paramed cuff. If you are looking for a home blood pressure cuff this one can't be beat for price and reliability.

GREAT FOR THE PRICE!

I was recommended to purchase an in-home blood pressure monitoring device after having a few high readings from visits to the dentist. This device had great reviews on Amazon and was perfectly within my price range.

Once the device arrived, I tried it on (a nice comfortable band with plenty of grip for my wrist) and set it going. Apart from the usual discomfort that comes with all blood pressure devices as they inflate, this one is an absolute must!

Within seconds, I had a good reading, clear display and the memory function is a bonus.

After seeing how easy it was, my wife wanted to check her pressure and was pleased that it fit her small wrists - again, it gave an accurate reading! Highly recommend this to anyone who wants a solid, at home device that is easy to use!

NICE TO HAVE AROUND

I got this thermometer as an extra to put in my diaper bag in case I need it for my 8 month old baby. I like that this digital thermometer came with instructions manual and has C/F unit to select for reading.

I also like that the display screen is big which makes it easier to read and the probe is soft & flexible and made of rubber which makes it more comfortable for my baby when taking a rectal temperature. I also tried to pull the metal probe tip just to make sure it's attached securely to the rubber probe and so far it is.

Looks like it is made of quality materials.

WONDERFUL DEVICE AND EASY TO USE!

This product came in awesome condition. Glad it came with batteries and it came with a little baggy to have it in.

It works awesome. I used it on my 6 month old, who usually won't stay still for more than a second. It read her temp fast and with no problem. Great to have around, specially with winter coming along.

WORKS WELL - GREAT VALUE!

I am impressed by how well this stethoscope works, and can find no defects in the materials or workmanship.

I must say, I was more than a little nervous about this purchase, since I have no medical training and have never used a stethoscope before. Some reviews on other models were very bad, but this one had mostly favorable reviews, so I took the chance.

It worked out very well – no problems using either the diaphragm end or the bell end. I think it might be a good idea to have some sort of indicator on the diaphragm to show which side is connected to the earpieces – but that's not a big problem since you will know right away if you're not using the side that is connected to the earpieces.

But, the product worked exactly as expected, and the quality is good and it appears to be quite durable, so I am very pleased.

LOVE IT!

I love this blood pressure monitor. So easy to use and I love that it speaks results, and it is very easy to set up. Which is great for me because I'm visually impaired. Highly recommend it!
